Exam Results

Please note that it can take up to seven business days for passing results to be displayed on

your Microsoft transcript (<https://mcp.microsoft.com/mcp/>). If this is your first Microsoft Certification Exam, you will receive two emails shortly after your transcript is created; one with your MCP Member ID number and the second with your Access Code for entering the MCP Member Site. For security purposes, the Access Code will only be active for a limited amount of time. If you do not use the Access Code before it expires, you will need to call our customer service center to request a new Access Code.

If passing results have not been posted to your transcript after seven business days, please contact Prometric by visiting <http://www.prometric.com/contactus>.
